Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon  in the top right banner on the home page. Additional information regarding notification settings can be found in the Request For More Information (RFMI) chapter.

The screenshot shows the NantHealth NaviNet home page. The top navigation bar includes the NantHealth logo, 'NaviNet', and dropdown menus for 'WORKFLOWS' and 'HEALTH PLANS'. On the right side of the navigation bar, there is a bell icon (notifications), a question mark icon (help), and a user profile icon. A red box highlights the bell icon. Below the navigation bar, there are three main sections: 'Top Support FAQs', 'Support Videos', and 'Contact Support'. The main content area features a large banner for 'COVID-19 Resources & Information' with a blue and white image of a globe. To the right of this banner, there is a vertical sidebar with 'Introducing the NaviNet AllPayer Storefront' and 'CORONAVIRUS The Science' by covermymed. A dialog box is open in the foreground, titled 'No Notifications Available'. The dialog box has tabs for 'Summary', 'Notifications', and 'Settings'. The 'Notifications' tab is selected and circled in red. The dialog box contains a large bell icon and the text: 'No Notifications Available. To choose which types of notifications you would like to receive, use your Activity Settings.'

Authorization Status – Approved and Pending

The episode will be approved or be in a pending status when the request has been submitted to the health plan.

Note: Denials are not processed automatically, pending status submissions will require medical review by the health plan. If a denial is processed by the plan, a telephone call/letter will be made/sent to the provider.

4 AMENDING AN AUTHORIZATION

Amending an Authorization Request

Amending a request is the process of extending existing services **or** requesting another service on the same authorization. Each time an amendment is made the note character limit will be reduced. Amending is only available to requests that have been approved or partially approved by the health plan. The maximum number of services that can be added to an authorization is 15.

When making an amendment the user can add diagnoses, add services, add notes (if the maximum character limit has not been exceeded) and add documents.

5 SEARCH FOR AN EXISTING AUTHORIZATION

Search for an Existing Authorization

Search for an Existing Authorization (also known as Authorization Inquiry) is a way to search for authorizations that may not have been initiated in NaviNet, for example they may have phoned, faxed, or created in Jiva.

Step	Action
1.	<p>Providers will only see authorizations/requests for members that are under their care. To search for an existing authorization select Medical Authorizations under Workflows for this Plan.</p> <div data-bbox="240 394 634 491"><p>Workflows for this Plan</p><p>Medical Authorizations</p></div>  <p>The screenshot shows the NantHealth NaviNet interface. 7 REQUEST FOR MORE INFORMATION (RFMI)

Request for More Information (RFMI)

Request for More Information (RFMI) is a feature that allows the health plan to request specific additional information to the provider if needed. Providers will only be able to have the RFMI ability for authorization requests that are pending or approved that are created in the NaviNet Provider Portal. Providers will be able to add notes and/or upload the documents in NaviNet Provider Portal for the pending authorization requests via the 'more information required' screen.

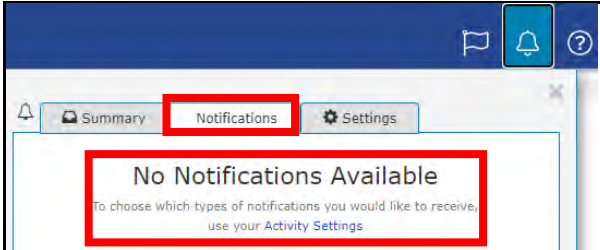

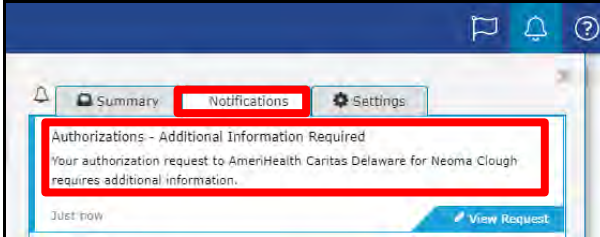

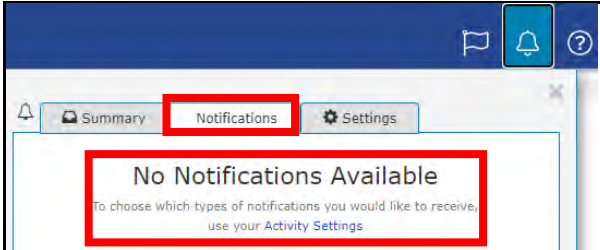

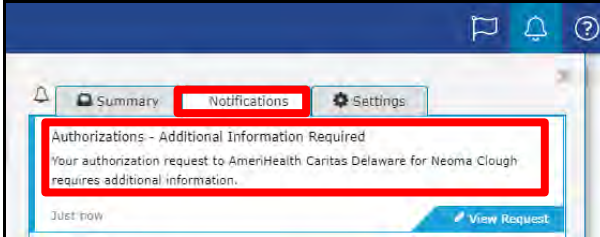

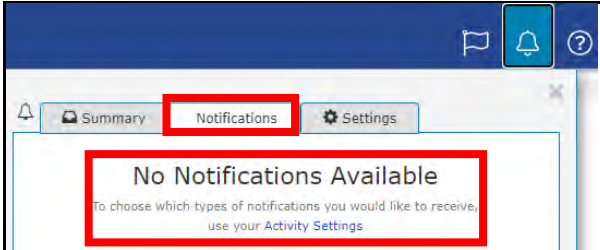

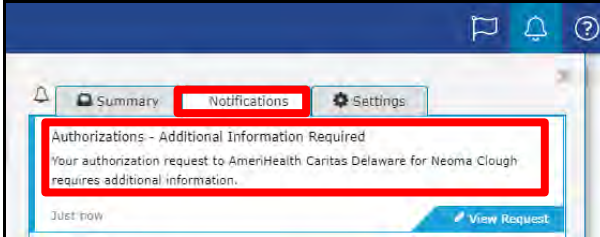

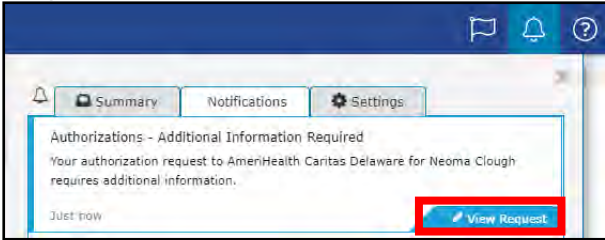

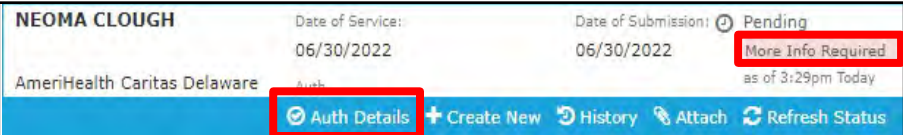

Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon in the top right banner on the home page. It is important to note that notifications related to RFMI is not an immediate process. There is a slight delay as information travels from system to system.

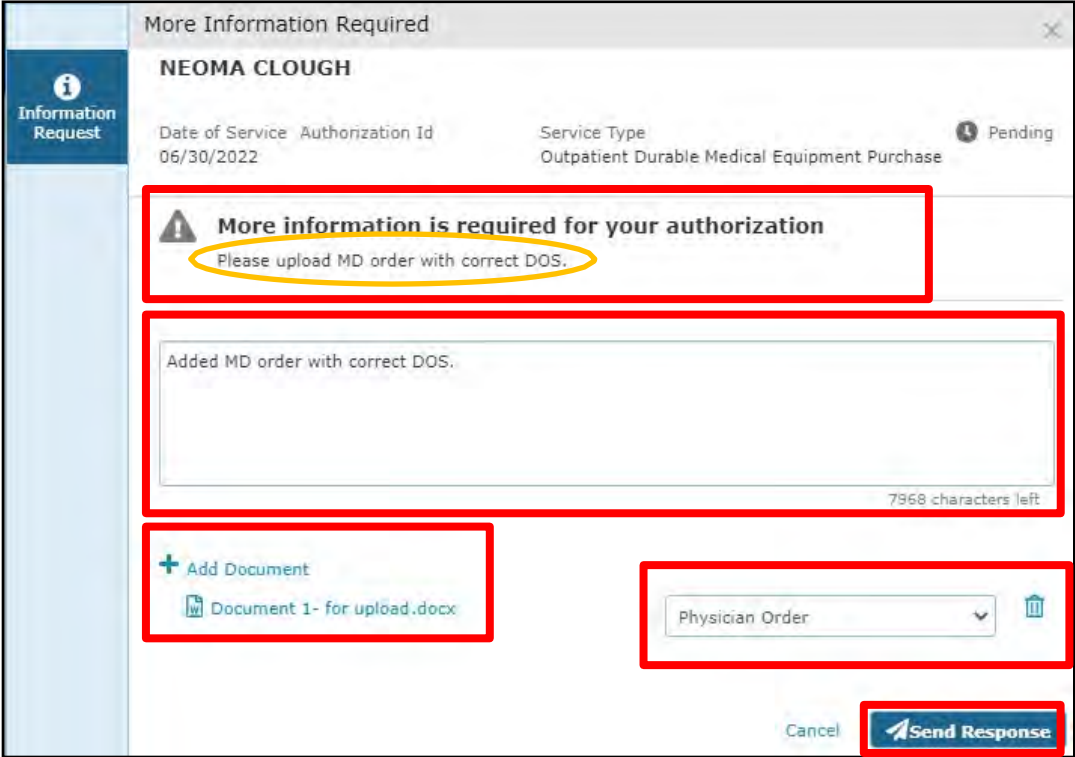

In NaviNet, users can opt to receive notifications whenever a request for additional information is requested from the health plan. Notifications can be managed under settings which is found when the bell icon is selected.

Step	Action
1.	<p>Select the bell icon in the top right corner in NaviNet, then from the Settings tab, specify the notifications you would like to receive.</p>  <p>The screenshot shows the NaviNet interface. In the top right corner, a bell icon is highlighted with a red box. Below it, the 'Settings' tab is also highlighted with a red box. The 'Notify me about...' section contains a list of notification types with checkboxes: 'Incoming Documents' (checked), 'Authorization Status Updates' (checked), 'Requests For More Information' (checked), 'Patient updates when running an E&B' (checked), and 'Response updates for Claim Investigations' (unchecked). Below this, the 'How would you like to receive your notifications?' section has two dropdown menus: 'Frequency of Pop-ups' set to 'Every 15 minutes' and 'Frequency of Emails (Claim Investigations only)' set to 'Do not send email notifications'.</p>
